# TR7

## Universal Trigger Output Module

### 7 Bonus Features

The TR7 has 7 additional Bonus Features not documented in the instructions. These Features are 17-23 as listed below. Only the TR7 supports these features. The older TR-7 in the black case does not support these features.

Feature	Feature#	Feature Select			Timer			Outputs used		
		Blue	White	Orange	Blue	White	Orange	Blue	White	Orange
Constant - delayed pulsed output 1	17	On constant trigger - pulse output after programmable time			*			*		
Pulsed input - delayed pulsed output	18	On pulsed input - delay pulse output after programmable time			*			*		
Constant on/off - delayed pulsed output 2	19	On constant trigger - prog. delayed pulsed output, when trigger off - prog. delayed pused output.			*	*		*	*	
Like version# 4, but programmable pulses	20	Programmable pulsed output						*		
Low Voltage trigger with delayed output	21	Same as Feature #1 with programmable delay. Output stays on for 1 second on trigger off			*			*		
Alternating Pulsed outputs	22	On pulsed input - white and orange wires alternate pulse							*	*
Constant - Delayed on/off and pulsed output	23		delayed on = 1, delayed off = 2	Count number of pulses to pulse output		*	*		*	*

**REMEMBER!** PAC **does not** provide technical support for these Bonus Features. Technical support has no other information other than the chart above.

DISCLAIMER: Under no circumstances shall the manufacturer or the distributors of the TR7 be held liable for consequential damages sustained in connection with the TR7. The manufacture and it's distributors will not, nor will they authorize any representative or any other individual to assume obligation or liability in relation to the TR7 other than its replacement.
